Experience

E. Lane Boutique, Sale Associate

2024-Now

- Monitored the store's inventory by organizing sizes and replacing sold garments. This made the shopping experience more efficient for the customer.
- Improved the store's displays by styling mannequins with clothing from recent shipments.
- Secured sales by helping customers find the clothing right for them.

PS By Payton, Small Business Owner

2019-Now

- Planned what products to sew as the sole manufacturer. This led to good quality products being sold with a quick production time.
- Designed items marketed towards women, with fun colors and cheerful motifs. The target audience began purchasing the products.
- Conserved resources by sewing with scrap fabric. This saved money on materials and lowered the brand's carbon footprint.
